

Top 5 ways to stay safe and be responsible online

Make sure a parent or guardian knows when you're surfing the net.
Here are 5 ways to stay safe online.

1. Make sure to never give out personal information such as your address or telephone number without your parents or guardians permission. List at least 3 other bits of information you should never give out.

2. Always be kind when you are online. If you wouldn't say it in person, don't say it online. Stand up for those who are bullied, and let them know that you're there for them. Next time you notice someone is being bullied online what will you do to help?

3. Never agree to get together with someone you have been in contact with online without first checking with your parents or guardians first. If they agree to the meeting, what will you do to ensure your safety?

4. If you receive any messages that are mean or make me feel uncomfortable, never respond to them. What should you do instead?

5. Remember if you come across something that makes you feel uncomfortable always tell your parents or guardians right away.
